

Do not operate unless trained and authorized

- Ask Yourself:
- Have you been provided with information and training in the safe use and operation of this machine or tool before operating
- Have you been informed of all the risks and hazards associated with the machine or tool
- Are all safeguards in place and in good working condition
- Are written safe work procedures readily available
- Have you been trained on the safe work procedures
- Are you operating on accordance to manufacturers specifications
- Do you have or are you wearing all the required Personal Protective Equipment when operating, maintaining or cleaning this equipment
- Have you been trained in the LOCK OUT procedures (a written procedure followed whenever a machine is serviced, repaired, tested, cleaned, maintained, or adjusted)
- **Remember – if you are not sure – it is ok to ask!**
